

Metabo HPT introduces MultiVolt: a cordless and/or corded solution that offers the power of a corded tool and the freedom of a cordless platform. MultiVolt gives you the choice to operate all MultiVolt tools with a battery or plug into an outlet for ultimate versatility, safety and value.

You no longer need both a cordless and corded tool - MultiVolt is a one tool solution

Go cordless with the 36V/18V battery

- Works in all 36V Multivolt tools (as 4.0Ah)
- Also backwards-compatible with all Metabo HPT 18V tools (as 4.0Ah)
- Lightweight battery - only 2.1 lbs (less than other comparable competitive batteries)

OR ... Plug-in the 36V MultiVolt AC/DC Adapter

- Unlimited runtime
- 20 ft cord
- No power loss when used with extension cords or generator
- Boost existing 18V tools

A green-themed banner for Metabo HPT MultiVolt. On the left is the 'MULTI VOLT' logo. In the center, the text 'YOU DECIDE!' is written in large white letters, with 'or' below it. To the left of 'or' is a 36V/18V battery, and to the right is a 36V AC/DC adapter with a 20-foot cord. Below the battery is the word 'CORDLESS' and below the adapter is the word 'CORDED'. A small award logo for 'PTIA 2018 TOOL INNOVATION AWARDS WINNER' is positioned between the two options.

A banner with a grey background on the left and a black background on the right. The left side features the text 'BACK TO' in black, followed by 'INNOVATIVE' in large red letters and 'PRODUCTS' in large black letters. The right side features the 'HD SUPPLY' logo in yellow and white, with 'CONSTRUCTION & INDUSTRIAL' and 'WHITE CAP' in white text below it.
