

## AP1850we Single direction battery-operated vibratory plate

Single direction, emission-free vibratory plate with water tank for soil and asphalt compaction. With battery-operated electric motor.

**Emission-free compaction in trenches, industrial buildings and enclosures! The AP1850we is suitable for all traditional soil and asphalt compaction work, protecting the operator and the environment in the process.**

- Easy start at the push of a button, even in very low temperatures
- With a water tank and sprinkler set for asphalt compaction
- Fold-down guide bar for compact transport and storage dimensions
- Low-wear, durable base plate made of nodular cast iron
- Maintenance-free asynchronous electric motor developed and produced in-house.
- Can be used for all applications on an average workday with just one battery charge.
- Low hand-arm vibrations

A battery is required to operate this vibratory plate. The battery and various battery chargers are also available here in the shop.
