

The 2019 Tilt-Up Convention and Expo in Atlanta will celebrate the spirit of the city's symbol, the phoenix. Education will be focused on the rising expectations of those charged with creating our built environment, those designing and building our churches, schools, libraries and places of work.

Over three days, hundreds of tilt-up professionals will feature examples of new technologies, new research and new techniques designed to propel the industry to new heights.

You will leave inspired, armed with valuable knowledge and awareness of new resources, connections and tools to rise up and exceed expectations in your own work, company and market.

# RISING EXPECTATIONS

## EDUCATION

One of the great advantages of active involvement with the TCA is the opportunity for discourse across disciplines (architecture, engineering, construction and supply). This year's education program features talks bringing together these sometimes divergent interests to highlight common issues, shared responsibilities, and opportunities for increased collaboration. Additionally, series of focused talks for designers and contractors will dive deeper into topics specific to each.

## NETWORKING

Participation in this important industry event ensures effective utilization of the greatest, and most diverse network of tilt-up professionals on the planet. The connections made between attendees prove to be very beneficial. Post-event surveys conclude that 67% of participants make new connections that will help them grow professionally, 60% make new connections that their company or firm may collaborate with on future projects, and 73% make connections that could help troubleshoot issues on their next project.

## TECHNOLOGY

The 2019 Tilt-Up Convention and Expo brings together the leading suppliers and manufacturers in today's tilt-up industry. The innovation that comes from TCA's exhibiting companies is unparalleled, and plays a vital role in the industry's design capabilities, technological advancements and simplified processes that are used today. See who's exhibiting by visiting the event website at [www.tilt-up.org/events](http://www.tilt-up.org/events).

## AWARDS

Kick off this year's event at the seventh annual Tilt-Up Awards Gala at the world famous Georgia Aquarium. The event will honor those organizations, people and projects that have successfully illustrated the variety, beauty and flexibility of tilt-up construction. Awards presented during this event will include, the Alphonse Engelman Safety Awards, Tilt-Up Achievement Awards and the TCA Professional Awards. We will also induct a new member to the TCA College of Fellows.

**September 26-28 | Atlanta, Georgia**  
**Atlanta Marriott Marquis**
